📍 59/A3 Punjab Housing Society Near collage Road lahore 🌐 Hassan Pervaiz

### PROFILE

---

**Senior QA Engineer** with over 5 years of hands-on experience in driving software quality assurance initiatives across diverse industries. Adept at collaborating with cross-functional teams to ensure seamless integration of quality into all stages of the development lifecycle. Recognized for exceptional communication skills, analytical problem-solving, and a proven ability to manage and prioritize multiple complex projects simultaneously. Known for delivering high-quality results under tight deadlines while maintaining a strong focus on continuous improvement and product excellence.

### PROFESSIONAL EXPERIENCE

---

#### Senior Software Quality Assurance Engineer

04/2023 – present

*Stewart Pakistan Private Limited*

- **Acquired extensive experience in the Real Estate and Money Movement industries**, working on complex, domain-specific applications.
- **Led and managed a team as a Senior Resource**, successfully delivering **70%-80% of projects on time**, while earning **100% client satisfaction and appreciation** for high-quality deliverables.
- **Worked across multiple projects involving complex API integrations**, ensuring seamless data exchange and system interoperability.
- **Actively participated in routine scrum ceremonies** such as daily stand-ups, grooming, and planning sessions, consistently **raising valuable insights and points** that enhanced team performance.
- **Collaborated closely with analysis, client services, and configuration teams**, ensuring streamlined communication and smooth project execution.
- **Thoroughly evaluated and tested software to validate program functions**, ensuring alignment with business requirements and technical specifications.
- **Performed comprehensive Regression and Smoke Testing**, identifying critical issues early and ensuring software stability before major releases.
- **Created detailed test cases and scripts, and mentored and trained junior team members** to ensure adherence to quality standards and testing best practices.
- **Supported product managers and development teams** across all phases of testing, from planning and execution to troubleshooting and reporting, ensuring a smooth and efficient development cycle.

#### Software Quality Assurance Engineer

08/2021 – 04/2023

*Amoxit Solutions Inc.*

- **Developed detailed, comprehensive test cases and plans**, achieving an impressive **97% test coverage**, ensuring thorough testing across all functionalities.
- **Performed extensive testing methodologies** including **Business Functionality Testing, Blackbox Testing, Navigation Testing, and Validation Testing**, ensuring optimal software performance.
- **Collaborated closely with analysis teams, client services, and configuration teams** to streamline testing processes and deliver actionable insights.
- **Thoroughly evaluated and tested software systems** to validate program functions, ensuring that the final product met high-quality standards and customer expectations.
